a Page Similarity ≠ Action Equivalence

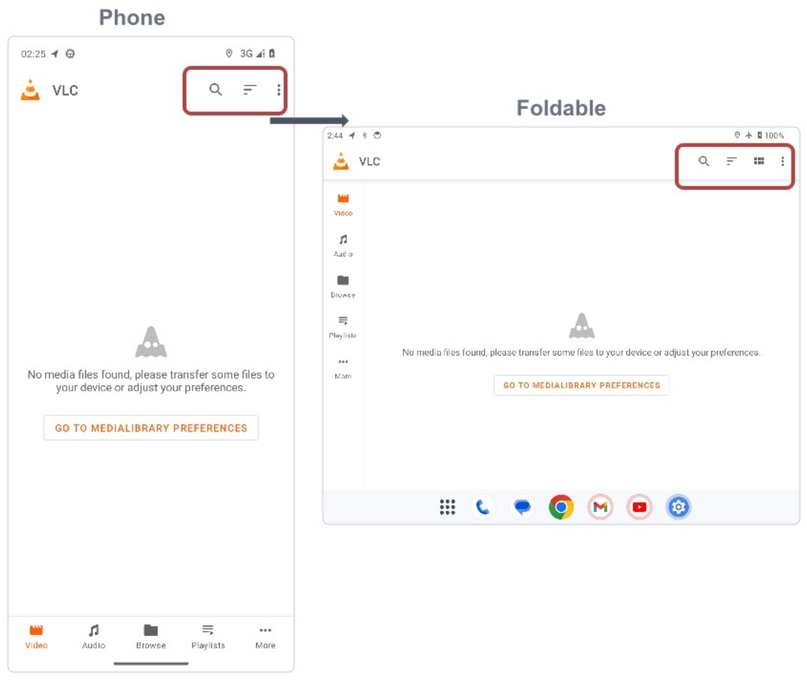

Similar pages expose different action sets.
Left: Video—group, list, and refresh.
Right: Audio—grid and refresh.

b Same Action ≠ Same Transition

The same action can produce different successor states.
Top: the snackbar remains visible.
Bottom: the snackbar disappears.

c Same Selector ≠ Same Target

Responsive layouts change control order and position.
Left: Phone—search, sort, and overflow.
Right: Foldable—search, sort, grid, and overflow.
